

I am the person

I am the person who insulted you at phone
I am the person who harassed you because you were a little boy
And i am the person you hate the most

I am the person who sent you horror messages
I am the person who stole your school things

I am the person who you gave your meal at the canteen
I am the person who scared you when i locked you
I am not a good person, I am a bully

I am the person you didn't like to hear the name
I am the person for whom you nightmare was a game

I am the person who scared you when i spoke to you
I am the person who every time harassed you
I am the person who always wanted to bully you
I am a monster this is a true

You shouldn't harass your classmates. Instead, you should oppose the bullying and defend the victim.
