

I am the person who hated you,
I am the person who hit you,
I am the person who put you against the lockers,
I am sorry I beat you up.

I am the person who racketed you,
I am the person who sent you threatening messages on social networks,
I am the person who laughed at you,
I am sorry I harassed you.

I am the person who mocked your colour of skin,
I am the person who insulted your religion,
I am sorry I mocked you.

If see you being harassed, I'll defend you.

Instead of harassing ^{people} someone, you should help ^{them} him!
